

Integral Interiors

JOB DATA SHEET

Client: BMI Healthcare Ltd
Project: Out patients reception refurbishment
Location: Bath Clinic, Bath
Designer: BMI Healthcare Ltd

BMI Healthcare, part of the General Healthcare Group, are the UK's premier private health care provider with acute private patient hospitals and outpatients centres in 56 locations around the country. As part of a national roll out of reception re-branding projects, Integral Interiors were tasked with completing a full refurbishment of the out patients reception area.

Works also included changes to the lighting systems, CCTV, data, fire alarm, and telephones to facilitate the new design. All works were in a "live" environment, and made more complicated by the fact the out patient department is a main thoroughfare through the hospital. The planning and coordination of the project was therefore critical to ensure the department and adjacent areas continued to function during the works. This was done by planning all works in conjunction with hospital staff and consultants, this ensured buy in and that the works were completed with no delays or issues.

Simon Kohn (Furniture) Ltd

INTEGRAL

The works were planned on a phased basis to ensure no disruption to hospital staff, patients and visitors. The works consisted of a refurbishment of the out patient reception desk, all new decorations, Amtico flooring, carpeting and a "feature" wall constructed of Armourcoat the Venetian specialist plaster.
