JOB DATA SHEET

Client: Oasis Dental Care Ltd
Project: Head Office & Surgery Fit Out
Location: Vantage Office Park, Bristol
Designer: Oasis Dental Care Ltd

Oasis Health Care Ltd owns and operates over 140 dental practices throughout England and Wales, providing a combination of NHS and private dental care. When Oasis wanted to re-locate their head office from Norwich to Bristol they selected a large unit on an office park in north Bristol. As this was to be their UK Headquarters a premium fit out was required, this included a fully functioning dental surgery and associated rooms that could be used for training purposes.

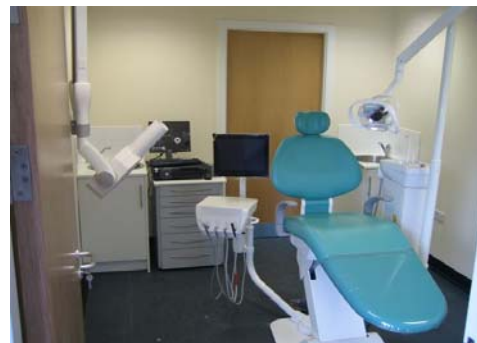

INTEGRAL

Oasis were already discussing the maintenance of their estate with Integral's maintenance division, however when the project in Bristol arose Integral Interiors were asked to manage it to bring to bear their project experience of fast track fit out works. Integral Interiors priced a basic design layout, including a revised M&E design.

The project also included a large lecture theatre and meeting room with a sliding acoustic door and partition, additional office space, new reception area and desk, a post room, additional office space and archive store. A fully fitted kitchen and break out area were also incorporated into the project which was completed over a fast track period of 6 weeks from start to finish. The reception desk and surgery screens were designed and built by Simon Kohn Furniture Ltd (www.simonkohn.co.uk), a Bristol based joinery company with whom Integral Interiors have a joint venture for all their design & build joinery projects. Additional works to re-configure the lighting, fire alarm and data cabling were also undertaken as a part of the project by Integral UK's in-house Divisions, all managed and coordinated by Integral Interiors.
